WORLD'S SERIES GAMBLING DEPLORED BY HONEST FANS

Almost Costs Pittsburgh Team the Championship in Last Big Game—Abstein suffers Unjust Criticism Because of Heavy Wagers—May Prohibit it in the Future.

A glaring evil of the world's series was the gambling on the games. Betting reached proportions many times greater than ever before, and when the title is played for next year the chances are that the national commission will ask the aid of the police in the cities represented by the competing teams to drive the gamblers out of town.

Thousands of dollars were bet openly in both Pittsburgh and Detroit without the slightest effort on the part of the authorities to call a halt. Many "cheap sports" followed the Pirates to Detroit. Encouraged by the failure to even make a bluff to stop betting, the gamblers opened handbooks in the lobbies of the principal hotels at Detroit and made bets without the slightest interference.

Had Pittsburgh lost the series the club would have had no one to blame but the gamblers. The club has lost several valuable players in recent years through the gamblers, who have gotten after men like Bransfield, Beaumont and Ritzey and made it impossible for them to play their best game in that city. The officials of the Pirates have worked hard to down the evil, but it has not been suppressed entirely.

Some of these bettors have made life miserable for First Baseman Abstein during the closing weeks of the race, and they had the initial sacker "on the run" before the world's series started.

Abstein Loses His Nerve.
It is admitted by the Pirates that it was Abstein's work that played a big part in making them National League champions. Abstein appeared to be particularly fortunate in hitting the curves of the Chicago pitchers, and he won several games from the Cubs by his long drives. All this was forgotten when Abstein made a few errors, and the young man's nerves were shaken before the world's series started.

During the games with Detroit Abstein played loosely and the other Pirates, seeing that Abstein was the "goat" for the combination, kept up the cry against him, thus shifting some of the blame for their own bad playing.

The Pittsburgh club has never been able to fill the job at first base since

MURPHY AND HERMANN SMOKE PIPE OF PEACE

Cincinnati, Nov. 2.—The dove of peace again roosts above Messrs. C. W. Murphy, the Chicago National League magnate, and August Herrmann, chairman of the National Baseball Commission. All differences, misunderstandings, ruffled feelings and managerial abrasions resulting from sharp correspondence between the moguls have been smoothed over and healed by the gentle diplomacy of Charles P. Taft.

According to his assertion President Murphy owns 52 per cent. of the Chicago club, while Mr. Taft still retains a 25 per cent interest. When the dispute between Murphy on one side and Herrmann and the national commission on the other over the purchase of Pitcher Fred Pfeffer of the Toronto club and Cole of the Bay City, Mich. club, by Murphy recently became so acute that the commission criticised the club owner in strong language, Mr. Taft decided to have a peace reunion in his office here between Murphy and Herrmann.

The hatchet has been buried. With Mr. Taft as the mediator the Chicago magnate and the boss of the commission shook hands and renewed old friendships. However, the \$500 fine imposed by the commission against the Chicago club over the Pfeffer case remains intact and also Murphy must pay \$1,500 for Cole as a direct purchase instead of \$300 on a draft.

HOW YOST TREATS A MAN.

His Specialty is Mimicry and it Brings Him Results.

If Fielding H. Yost ever decides to quit the present mixture of football tutelage and water power promoting in which he now puts in his time, a fortune awaits him on the vaudeville stage. At any rate, his essays as a personal entertainer on Ferry Field, Ann Arbor, have never failed to draw a good laugh.

The coach's comic specialty is mimicry. His most scathing rebuke for a player in practice is invariably an imitation and he does the stunt so cleverly as to bring down upon the head of the offender the guffaws of both "varsity and scrubs, as well as the hearty appreciation of those on the side lines.

Conklin, the "varsity guard, showed a lamentable lack of pepper the other afternoon, failing to get himself into a position to tackle on one of the scrubs attempted forward passes.

"What were you doing, Conklin?" Inquired the coach in his southern drawl. "Out for a stroll? Why you went down the field like this"—and the coach lumbered sleepily across the chalk-marks in such a laughable caricature that even Conklin had to grin.

On the very next down Conklin tore through his astounded opponent like an electric shock and grabbed Quarter Cunningham of the scrubs before he had even a chance to pass the ball.

STARS LEAVE OTTAWA.

It is reported on good authority that neither Freddie Lake or Bruce Stuart, the former Portage Lake hockey stars will be seen in the Ottawa line-up this season. Stuart announced some time ago that he did not care to return to

Bransfield played there, and "Kitty," it has been claimed, was driven off the team by the gamblers. If President Dreyfus and Manager Clarke want to get that hole at first base plugged up, and they most certainly do, they will have to wage a more vigorous crusade than ever against the gamblers. But the chap who gets the job of playing first base on the team will have the sympathy of all those conversant with the facts.

The Physical Marvel Zbyszko

Age—26.
Weight—286 pounds.
Height—5 feet 11 inches.
Neck—22 inches.
Chest—55 inches.
Waist—44 inches.
Upper arm—32 inches.
Forearm—18 inches.
Wrist—13 inches.
Biceps—31 inches.
Calf—19½ inches.

If weight counts for anything, Frank Gotch, the champion wrestler, will have a big job on his hands when he tackles Zbyszko, the Polish champion, now in this country in search of mat victims and round dollars. Zbyszko is under the management of Jack Herman of Buffalo, who promoted the Root-Gardner and other fights at Port Erie.

Zbyszko was brought to this country to meet Gotch. When the latter was in Europe last year he promised Zbyszko a match, providing the Pole would come to this country and defeat lesser lights. This he is now doing and it is expected that within a few months a

match with Gotch will be arranged. Just now Zbyszko is touring the country and meeting all comers. Thus far he has not failed to throw every opponent in less than 15 minutes and he agrees to throw any three men who face him in an hour.

Ottawa, and now it is reported from Galt, Ontario, that his old friend Lake is to join him and play with the Wanderers, of Montreal, this season. The loss of these stars will be a serious one for the Stanley Cup holders, as they have been mainstays on the team for the past two seasons. Neither Harry or Alf Smith are likely to appear with Ottawa this year, and Billy Gilmour may likewise succumb. Only Taylor, Kerr, Walsh and Lesueur of the old Ottawa regulars are expected back again.

MURPHY OUTWITS BERRY.

Drafts Star Player Instead of Buying Him as Expected.

Los Angeles, Nov. 2.—It took Charlie Murphy, owner of the Cubs, to cut Henry Berry's wisdom teeth properly. The rotund president of the Cubs practically did Berry out of backstop Orndorff this year.

In the early spring Berry received a long letter from Murphy, telling him that he (Murphy) would be glad to hear of any promising players the manager of the Angels might have. He intimated that he might buy Berry to avoid the inevitable draft. Berry answered that Orndorff was about the best looking proposition he had, but Murphy immediately replied that he was too high priced at the figures mentioned. Imagine Berry's wrath when he found that Murphy had drafted his star catcher.

Cleveland pulled the same kind of a deal on Los Angeles last year when the Blues secured Easterly. Berry now swears he is through with the big league magnates.

THE CATCHER'S MITT.

The value of a catcher's mitt at once becomes apparent when the condition of Johnny Kling's hands is considered. Kling, who has been in the game for years, and has used the modern catcher's mitt, is today one of the greatest pool players in the world and his hands are in excellent condition. Did you ever see the fingers of some of the old-time catchers who were in the game before it was possible to stave off the speed of a pitcher with a big padded mitt? The twisted and knotted digits would be of no special value to a pool player.—Boston Journal.

INDIANS ARE POPULAR.

Manager McGraw, of the Giants, has recently corralled another Indian in John Bull Williams, of the Marion, O. State league club. Williams is a full-blooded Oneida and lives in a small settlement in northwest Wisconsin. He is said to be an excellent outfielder and batsman.

Last season he took part in 130 games and stood third in batting with an average of .297. He made 142 hits, including 22 two-baggers, eight three-baggers and six home runs. Big Chief Meyers will probably welcome John Bull with open arms next spring.

KING HONORS JOCKEY.

Newmarket, Nov. 2.—King Edward has presented "Danny" Maher, the American jockey, with a beautiful jeweled scarfpin in recognition of the jockey's success in winning the Free Handicap sweepstakes last week with his majesty's Minors.

ATTENDANCE RECORDS.

Total Attendance of Both Leagues Last Season, 7,377,318.

The Sporting Life of Philadelphia prints some figures that are very interesting, if true. They are unofficial, but probably as near right as any that will come out, so here goes. A grand total of 7,377,318 persons witnessed the championship games in the two big leagues. The 1908 total was 7,246,254. In 1908 the National league outsold the American league by 23,622. This year honors were reversed, the Johnsonian body outdrawing the parent organization by 162,442. The new customers were 128,514 for the American league and 245,000 for the National league.

BLAME HATS FOR BALDNESS.

Women and Men Should Go Bare-headed Says Dr. Guild.

Unless hats are abandoned the race will be bald in six generations. If men and women would preserve a nature given adornment they must go about their various vocations bare-headed.

Otherwise the near future sees the enforced adoption of a universal fashion in head toilets for both male and female—smooth and polished, with an occasional bump, but generally bearing the complexion and contour of an old billiard ball.

This is the opinion of Dr. W. A. Guild, a cousin of former Gov. Curtis Guild, of Massachusetts, who is a visitor in Chicago.

"It is a scientifically established fact that the American people are on the road to permanent baldness, and the goal will be achieved in such short order as to startle the average person unless heroic measures are adopted for its prevention at once," said Dr. Guild.

Men and women must go bare-headed if they would prevent universal alopecia. Men are to blame for the baldness which now is becoming apparent in women. The disease is hereditary. Fathers are bald and their sons early display similar tendencies.

THAT OLD FAMILIAR NOSE.

—Chicago Record-Herald.

Where one or two successive generations have little hair on their heads it can almost be taken for granted that the next generation will be prematurely bald.

"Stiff and silk are much to blame for the conditions in metropolitan centers, and the reason the ratio is not the same in country districts is because men are prone to wear hats with loose hands or to go much of the time uncovered.

"Hats, as men wear them, press close about the temples and cut off the blood supply to the head. This pressure on the ascending arteries, diminishing materially the blood flow produces atrophy in the parenchyma of the hair follicles.

"As a result there is an altered secretion from the sebaceous glands of the scalp, and this altered secretion dries about the hair roots causing what is commonly known as dandruff.

"Under this covering of dandruff lies a fertile field for the growth of those parasites which feed on the hair cells. It resolves itself into the simple anatomical condition which insures any part of the body health which has a full blood supply and disease when it is without it.

"Along with women's hats should go all sorts of false hair."

"Schochets."

A large business is done by the men who are licensed to kill poultry according to the Mosale law. They are known as "schochets" and are employed by the poultry dealers of the East side. Their pay has not been satisfactory of late, and at a recent meeting of their organization a strike was decided upon, which was averted by the recently founded "community."

—New York Tribune.

Sinful.

Charity may cove a multitude of sins; but when you see a beggar buy liquor with the money you gave him in response to a piteous appeal for "something to get a meal with," you are convinced that charity is incapable of covering itself, among the others.—Salt Lake Tribune.

LEGAL NOTICES.

Nov. 2, 9, 16, 23.

STATE OF MICHIGAN.

The Probate Court for the County of Houghton.

At a session of said Court, held at the Probate Office in the Village of Houghton in said county, on the 29th day of October, A. D. 1909.

Present: Hon. Geo. C. Bentley, Judge of Probate.

In the matter of the estate of Per August Jernberg, deceased.

Albert Jernberg having filed in said court his petition praying that the time for presentation of claims against said estate be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court.

It is ordered that four months from this date be allowed for creditors to present claims against said estate.

It is further ordered that the 4th day of March, 1910, at ten o'clock in the forenoon, at said Probate Office, be and is hereby appointed for the examination and adjustment of all claims and demands against said deceased and that notice thereof be given by publication once in each week for three successive weeks previous to said day of hearing, in the Calumet News, a newspaper printed and circulated in said county.

EMPLOYES OF THE Calumet & Hecla Mn'g Co.

Who wish to sell their houses or buy houses on Co. Land; who have rooms to rent or who wish to rent rooms, are invited to advertise in this column without any expense.

FOR SALE—House No. 4345 Yellow Jacket, Cone st.

FOR SALE—4 room house, No. 4925 behind Calumet dam. Inquire within.

DANGEROUS!

To Delay Longer.

Selection is Still Good but is Getting Smaller Every Day.

Such Low Prices Have Never Been Made Before.

New Pianos Only \$167, \$190, \$229.

A week ago our state manager wrote us that he had closed one of our Upper Peninsula stores and had ordered all of its stock shipped to Calumet.

Our manager's letter informed us that this store was closed because its territory was not large enough to support an exclusive piano house, and that we were to dispose of this beautiful stock of high grade pianos, at once, regardless of price.

A BIG CUT IN PRICES.

It is about the only thing that will sell a large stock of pianos in a very short time and this is the method we adopted. We are bound to lose money by this move, but we have anyhow. If we don't sell these pianos at once we must rent another warehouse or ship the stock back to the factory.

EITHER WAY WE LOSE MONEY

so we decided to let the public have the benefit and a week ago announced this fact through the papers. The results have more than surprised us. We have done the biggest business of our history during the past six days. The public is usually quick to see a chance to save money and this case was no exception.

DO NOT DELAY.

If you expect to share in this great distribution of beautiful pianos and organs at wholesale prices. Already a great many pianos have been sold to the best class of citizens in this country and your chances of getting just what you may want are getting smaller every day. However, there are still a few each of our many beautiful styles and you can still make a good selection, if you come at once.

NEW PIANOS AT \$167-\$190.

We are selling brand new guaranteed pianos at the above prices. We know that such good instruments were never offered in this state at

anything like these figures before. You save \$100 to \$150 by buying now.

HOW WE CAN DO IT.

The Cable Co. is to-day and has been for years, the largest manufacturers of pianos and organs in the world. We operate two tremendous factories which employ 1,800 men.

This Calumet store is one of our many branches from which we sell direct to the public at prices far below the average retailers on the same grade of goods. During this sale we have reduced these prices a great deal more until we can prove to you that we are saving you over a third of the price on a good piano.

ALL OUR PIANOS GUARANTEED.

The Cable Co. guarantees every one of its pianos to be standard. Our whole reputation of thirty-five years of honorable dealing with the public and millions of dollars in cash is back of that guarantee. If you, personally, are not acquainted with these facts ask your banker who we are or ask your next door neighbor about our pianos. The chances are his piano came from us as we make half the pianos sold in Houghton Co.

YOU MUST BUY NOW.

If you expect to get the present discount. These prices are absolutely the lowest we have ever made and when this sale is over it will be too late. When this extra stock of pianos are gone our regular prices will again go into effect.

Come in at once and if you are short of ready cash right now we will arrange terms to suit you. Remember this stock of beautiful pianos are selling themselves at present prices and they won't last long. At the present rate a few more days will close them out and this great sale will be past history.

Special \$500 Chase Bros. Piano fine condition, at \$198; Estey Organ, almost new, was \$150, now \$58. Other Organs from \$19 up.

Victor Talking Machines from \$17.50 up. New Accordions at \$3.30, \$4.20, \$4.80. Regular prices, \$5.50, \$7.00 and \$10.50.

The Cable Piano Co.

115 Fifth Street

Tel 420.

R. W. WILSON, Mgr.

Pianos shipped anywhere in the state free of expense to you. Write if you cannot call. Store open every evening.
